Dear Mr. Morss:

We have received your report on reception of our signal which we appreciate very much. The items you list are correct and sufficient to verify this report.

We have received many letters from members of the National Radio Club and wish to express our appreciation of their interest and help.

You may be interested to know that we are operating on 100 watts with a T-Type Antenna approximately 65' high. We will be glad to have any further reports you would care to make.

Yours very truly,

A. R. MacWilliams
Chief Engineer.
